## Altrad awarded £350m contract from EDF

- Maintenance services for eight EDF nuclear sites across the UK
- Around 500 people employed to support the contract

Altrad has been chosen as the maintenance partner for a £350m contract by EDF to carry out a range of works on the existing fleet of eight nuclear power stations in the UK for the next nine years. The services will include access, insulation, coatings, tanks and building facades and comes under Altrad Services' maintenance business.

Paudie Somers, CEO Altrad Services UK, Ireland and Nordics said: "This material contract is testament to the relationship Altrad and EDF have fostered over 30 years spent working together.

"As the largest provider of industrial services in the UK, I'm pleased we will continue to help EDF power the UK with an ever-increasingly innovative suite of services designed to take our industry into the digital age. This contract also ensures long-term revenue for the UK Services business."

### Notes to Editor:

**EDF Energy** is the UK's largest producer of low-carbon electricity, meeting around one-fifth of the country's demand and supplying millions of customers and businesses with electricity and gas.

It generates electricity with eight nuclear power stations, more than 30 wind farms, one gas and one coal power station, as well as with combined heat and power plants.

EDF Energy is leading the UK's nuclear renaissance with the construction of a new nuclear power station at Hinkley Point C. This will provide low carbon electricity to meet 7% of UK demand.

EDF Energy is part of EDF Group, the world's biggest electricity generator. In the UK, the company employs around 13,000 people at locations across England and Scotland.
